Independent Auditor's Report

To the Board of Directors
PATH

We have audited the accompanying consolidated financial statements of PATH and Subsidiaries (collectively, the Organization) which comprise the consolidated statements of financial position as of December 31, 2016 and 2015, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Note 1 - Organization and Summary of Accounting Policies

Organization - PATH and its Subsidiaries (collectively, the Organization) is a 501(c)(3) nonprofit, nongovernmental organization incorporated in the State of Washington. PATH is an international organization that drives transformative innovation to save lives and improve health, especially among women and children. PATH accelerates innovation across five platforms - vaccines, drugs, diagnostics, devices and systems and service innovations - that harness its entrepreneurial insight, scientific and public health expertise and passion for health equity. By mobilizing partners around the world, PATH takes innovation to scale, working alongside countries primarily in Africa and Asia to tackle their greatest health needs. Together they deliver measurable results that disrupt the cycle of poor health.

For 40 years, PATH has been a pioneer in translating bold ideas into breakthrough health solutions, with a focus on child survival, maternal and reproductive health, and infectious diseases. With headquarters in Seattle, Washington, PATH has close to 1,500 employees and offices in more than 20 countries. PATH receives support from foundations, governments, multilateral agencies, nongovernmental organizations, universities, corporations and individuals. Learn more at www.path.org.

Basis of Presentation - The consolidated financial statements of the Organization have been prepared on the accrual basis of accounting under accounting principles generally accepted in the United States of America (U.S. GAAP). The consolidated financial statements include the accounts of PATH and PATH's controlled subsidiaries, including: PATH Vaccine Solutions (PVS), a 501(c)(3) nonprofit corporation formed to advance the development of vaccines to improve the health of children worldwide; Foundation for Appropriate Technologies in Health - Switzerland (FATH), a Swiss Foundation; and PATH Drug Solutions (PDS), a 501(c)(3) nonprofit corporation that advances the development of medicines to improve the health of children worldwide. All inter-entity accounts and transactions have been eliminated in consolidation.

For the purposes of financial reporting, the Organization classifies resources into three net asset categories pursuant to any donor-imposed restrictions. Accordingly, the net assets of the Organization are classified and reported as follows:

> Unrestricted Net Assets - Net assets that are not subject to donor-imposed stipulations.
>
> Temporarily Restricted Net Assets - Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Organization and/or the passage of time.
>
> Permanently Restricted Net Assets - Net assets restricted by donor-imposed stipulations to be invested in perpetuity. The investment income from these funds is available for current use.

Support and revenue are reported as increases in unrestricted net assets unless the use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law. Temporary restrictions expire when the donor-stipulated purpose has been fulfilled and/or the donor-stipulated time period has elapsed. Expirations of temporary restrictions result in the reclassification of temporarily restricted net assets to unrestricted net assets and are reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions.

Cash and Cash Equivalents - For purposes of the consolidated statements of cash flows, the Organization considers all highly liquid debt instruments purchased with an original maturity of three months or less, other than those held in the Organization's investment portfolio, to be cash equivalents.

Note 1 - Continued

Investments - Investments in equity securities with readily determinable market values and all debt securities are recorded at fair value. Unrealized and realized gains and losses on these investments are reported in the consolidated statements of activities and changes in net assets. Securities are generally held in custodial investment accounts administered by certain financial institutions.

Investment securities, in general, are exposed to various risks, including interest rate, credit and overall market volatility. Due to the level of risk associated with certain long-term investments, it is possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated statements of financial position.

Investment income consists primarily of income earned on cash, cash equivalents and investments and is recognized as earned. Where directed by the donor or grantor, investment income on award advances is credited to specific restricted funds for future use as specified in the award agreement. All other interest income earned is credited to other restricted and unrestricted fund balances as is appropriate.

Fair Value of Financial Instruments - Financial instruments reported at fair value on a recurring basis include investments. Financial instruments not reported at fair value on a recurring basis include receivables, accounts payable and notes payable. The carrying amounts of these financial instruments approximate fair value.

Contributions and Awards Receivable - Contributions and awards receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to expense and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts, grants or contributions receivable.

Furniture, Equipment and Leasehold Improvements - The Organization capitalizes furniture, equipment and leasehold improvements with a cost of $5,000 or greater. The cost of furniture and equipment is depreciated over the estimated useful life of the asset and is computed using the straight-line method. Leasehold improvements are amortized over the lives of the respective leases or the service lives of the improvements, whichever is shorter. Maintenance and repairs are charged to expense as incurred. Computer software purchases of $25,000 or greater are capitalized and depreciated. Internally developed software and internally developed enhancements and modifications to existing or purchased software that result in additional functionality with a total development cost in excess of $500,000 are capitalized and depreciated.

Vulnerability From Certain Concentrations - Financial instruments that potentially subject the Organization to concentrations of credit and market risk consist primarily of cash and cash equivalents and investments. Cash and cash equivalents and investments held by financial institutions at times exceed Federal Deposit Insurance Corporation and Securities Investor Protection Corporation insured limits.

For the years ended December 31, 2016 and 2015, total revenues, gains and other support of 50% and 51%, respectively, and gross contributions and awards receivable of 43% and 55%, respectively, were from one private foundation.

For the years ended December 31, 2016 and 2015, 31% and 26%, respectively, of the Organization's total revenues, gains and other support consists of awards from agencies of the United States government, and 24% and 20%, respectively, of gross contributions and awards receivable is from agencies of the United States government.

Note 1 - Continued

Management is aware of the related vulnerabilities but does not anticipate material losses in connection with these concentrations. Management continues to seek improved diversification from donors and funding sources.

Contributions and Awards Revenue Recognition - Unconditional contributions and awards from United States and foreign government agencies, foundations and public and private funders are recognized as temporarily restricted revenue at the time committed or obligated, provided the donor has identified a restriction on the use of the funds. Revenue from contracts is recognized at the time the service or good is provided.

Donated Goods and Services - Donations of goods, including property and equipment and software licenses, are recorded as support at their estimated fair values at the date of donation. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Donated services are recognized if the services received (i) create or enhance nonfinancial assets or (ii) require specialized skills, are provided by individuals possessing those skills and would need to be purchased if not provided by donation.

In-kind donations received totaled approximately $0.1 million and $7.9 million for the years ended December 31, 2016 and 2015, respectively. In 2015, two-year software licenses valued at $6.4 million were recorded as temporarily restricted in-kind contributions and are being released from restrictions over the two-year time period. The licenses were recorded as prepaid expense and are amortized over the two years.

Amortization and release from restriction totaled $3.2 million and $1 million for the years ended December 31, 2016 and 2015, respectively. In-kind expenses totaled $3.3 million and $2.4 million during the years ended December 31, 2016 and 2015, respectively.

Functional Allocation of Expenses - The costs of providing the various programs and other activities have been summarized on a functional basis in the consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Collaborations - Awards, contracts and temporarily restricted contributions are used to fund projects related to global health. In connection with these projects, the Organization works with collaborating partners to assess health problems, identify and implement solutions and evaluate results. Accordingly, the Organization enters into funding agreements and cooperative agreements with these collaborating partners including international agencies, ministries of health, nongovernmental organizations, commercial entities and universities, et cetera. Subagreements and subcontracts awarded from these projects are funded by temporarily restricted contributions from other organizations and recorded as expense, which totaled $107.0 million and $98.4 million for the years ended December 31, 2016 and 2015, respectively.

Tax Exempt Status - The Internal Revenue Service has determined that PATH, PVS and PDS are exempt from federal income taxes under provisions of Section 501(c)(3) of the Internal Revenue Code (IRC). They are classified as organizations that are not private foundations under Section 501(a) of the IRC. FATH, as an independent nonprofit foundation within the meaning of Articles 80 et seq of the Swiss Civil Code, has been granted tax exemption by the Department of Finance.

Foreign Currency Translation - Substantially all assets and liabilities of the Organization that are held in foreign currencies are translated at year end exchange rates. Revenues, gains and other support and expenses are translated at the average monthly exchange rates during the year. Gains and losses from foreign currency translation for the year are included in the consolidated statements of activities and changes in net assets.

Note 1 - Continued

Use of Estimates - The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications - Certain reclassifications have been made to 2015 amounts to conform to the 2016 presentation. The reclassifications have no effect on the previously reported total assets, liabilities, net assets, or change in net assets for 2015.

Subsequent Events - The Organization has evaluated subsequent events through May 31, 2017, the date on which the consolidated financial statements were available to be issued.

Note 2 - Cash and Cash Equivalents

Cash and cash equivalents consisted of the following at December 31:

Note 4 - Fair Value Measurements

U.S. GAAP provides a framework for measuring fair value. To increase consistency and comparability in fair value measurements, the framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants.

The framework uses a three-level valuation hierarchy based on observable and nonobservable inputs. Observable inputs consist of data obtained from independent sources. Nonobservable inputs reflect market assumptions. These two types of inputs are used to create the fair value hierarchy, giving preference to observable inputs.

Assets and liabilities classified as Level 1 have fair values based on unadjusted quoted market prices for identical instruments in active markets. Assets and liabilities classified as Level 2 have fair values based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, or model-derived valuations whose inputs are observable. Assets and liabilities classified as Level 3 have fair values based on value drivers that are unobservable.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money Market Investment Funds - Valued at cost plus accrued interest, which approximates fair value.

Equity and Debt Mutual Funds - Valued at quoted market prices in active markets, which represent the net asset value (NAV) of shares held by the Organization at year-end.

Equity Securities - Valued at the closing price reported on the active market on which the securities are traded.

Debt Securities - Valued using bid evaluations from similar instruments in actively traded markets.

Foreign Exchange Derivative Contracts - Valued based primarily on the exchange rates effective at the measurement date.

Awards from the United States government and certain nongovernmental organizations are recorded as revenue when obligated, which may not reflect the full amount awarded. The total amount of unobligated awards pending for active projects was $466.7 million and $381.9 million at December 31, 2016 and 2015, respectively. At December 31, 2016 and 2015, 59% and 58%, respectively, of the Organization’s unobligated awards were from one private foundation. At December 31, 2016 and 2015, 25%, of the Organization’s unobligated awards were from one agency of the United States government.

Note 6 - Furniture, Equipment and Leasehold Improvements

The Organization funds purchases of furniture, equipment and leasehold improvements from two sources: the capital fund, a designated reserve of unrestricted net assets; or temporarily restricted project funds.

Furniture, equipment and leasehold improvements consisted of the following at December 31:

	2016 (In Thousands) Capital Fund	Project Funds	Total
Furniture	$ 3,589	$ -	$ 3,589
Equipment	4,180	6,994	11,174

Note 7 - Line of Credit

The Organization has a revolving line of credit for up to $1 million with a commercial bank for working capital purposes available through June 30, 2017. Interest on the line is at LIBOR plus 1.25%. The line of credit is secured by the Organization's personal property. The credit facility available to the Organization is reduced by Standby Letters of Credit (SBLC) associated with its lease commitments. PATH has a SBLC for $234,300 at December 31, 2016 and 2015. No amounts were outstanding under the line of credit or SBLC at December 31, 2016 or 2015.

Note 8 - Notes Payable

Notes payable consisted of the following at December 31:

	(In Thousands)	
	2016	2015
Note payable to a commercial bank maturing February 1, 2018. Interest payments accrue at 1.86%. Principal is payable in monthly installments of $56,944. The note is secured by the Organization's personal property. The note includes certain restrictive covenants, including the requirement for the Organization to maintain certain financial ratios.	$ 797	$ 1,480
Program-related investment from a private foundation in the form of a note payable maturing November 2019. Interest is paid at a 2% fixed rate. Quarterly principal and interest payments of $69,114 are required. The note is secured by the Organization's trade fixtures, equipment and furnishings. The note includes certain restrictive covenants, including the requirement for the Organization to maintain certain financial ratios.	728	987
	$ 1,525	**$ 2,467**

Note 8 - Continued

Maturities of notes payable are as follows:

2017	$	947
2018		383
2019		195
	$	**1,525**

Interest expense on notes payable totaled $41,000 and $58,000 for the years ended December 31, 2016 and 2015, respectively.

Note 9 - Self-Insurance Reserve

The Organization maintains a research insurance program made up of a Self-Insured Retention (SIR) reserve fund and an excess insurance policy. The Organization's SIR program covers claims up to $125,000 per incident and is funded by allocations to programs that are conducting clinical trials involving human subjects. As of December 31, 2016 and 2015, $2.1 million has been funded and set aside in the reserve. It is anticipated that additional planned annual allocations and interest income will add to the reserve going forward. Additionally, the Organization carries an excess insurance policy to cover any potential claims from $125,000 to $10 million.

Note 10 - Unrestricted Net Assets

Unrestricted net assets consisted of the following at December 31:

	(In Thousands)			
		2016		2015
Capital fund	$	4,000	$	3,700
Catalyst fund		10,562		6,900

Undesignated		6,040		5,316
	$	**26,051**	**$**	**21,495**

Note 10 - Continued

The following is a description of board designated unrestricted net assets:

Capital Fund - Represents the portion of net assets attributed to the net book value of fixed assets and amounts designated for future purchases of fixed assets, net of any related loan balance.

Catalyst Fund - Represents a fund established by the Organization that consists of donor contributions that serve as a key source of innovation funding: funds that support new initiatives, leverage major grants and meet critical organizational needs.

Board Designated Endowment - The endowment that is included in unrestricted net assets represents amounts designated by the Board.

Self-Insured Retention Reserve - The amount funded to date to pay the Organization's share of any claims resulting from settlement or judgment of actions as a result of clinical trials (Note 9).

Note 11 - Temporarily Restricted Net Assets

Temporarily restricted net assets were available for the following purposes at December 31:

	(In Thousands)	
	2016	2015
Privately funded projects	$ 347,205	$ 422,579
U.S. government funded projects	52,512	51,430
Project funds generated from interest earnings	28,698	26,740
International government funded projects	21,536	21,561
International bi-lateral funded projects	6,343	8,756

Private campaign - donor restricted	4,344	3,242
Unpaid private campaign pledges	3,445	2,685
	$ 470,882	**$ 546,620**

Restricted funds are available for projects specified by donors and are focused primarily on global health initiatives.

Note 12 - Endowment

The Organization's endowment consists of a number of funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the Board to function as an endowment (quasi-endowment). As required by U.S. GAAP, net assets associated with endowment funds, including quasi-endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors of the Organization has reviewed the Washington State Prudent Management of Institutional Funds Act (PMIFA) and, having reviewed its rights and obligations thereunder, has determined that it is desirable to preserve, on a long-term basis, the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this determination, the Organization classifies as permanently restricted net assets the original value of gifts to the permanent endowment, the original value of subsequent gifts to the permanent endowment, and accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by PMIFA.

In accordance with PMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: 1) duration and preservation of the endowment fund; 2) the purposes of the Organization and the endowment fund; 3) general economic conditions; 4) effect of inflation or deflation; 5) the expected total return from income and the appreciation of investments; 6) other resources of the Organization; and, 7) the investment policy of the Organization.

Endowment net assets consisted of the following at December 31:

	2016 (In Thousands)			
	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor restricted endowment funds	$ -	$ 2,612	$ 3,394	$ 6,006

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity or for donor-specified periods as well as board designated funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in mutual funds to ensure a broad diversification among investment styles, sectors, industries, market capitalizations and credit quality. These vehicles offer the advantages of economies of scale, greater liquidity, broader diversification, cost efficiency, lower transaction costs and low minimum investment requirements not available through separate account management.

Note 12 - Continued

The performance objective for the total endowment investment portfolio is to achieve an annualized investment return, net of fees, which will exceed a composite index composed of 40% Barclays Capital Aggregate Index and 60% S&P 500 Index. The Organization expects its endowment funds, over time, to provide an average rate of return of approximately 5% annually. Actual returns in any given year may vary from this amount based on current market conditions.

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation between two asset classes: 40% fixed income and 60% equity investments to achieve its long-term return objectives within prudent risk constraints.

The Organization has established an endowment spending policy for appropriating a maximum distribution in support of PATH's programs each year. In establishing this policy, the Organization considered the long-term expected return on its endowment and the need for that return to provide additional protection for any necessary adjustment to the value of the endowment for inflation. In order to sustain the real value of the endowment, the long-term return of the endowment should meet or exceed spending plus inflation as measured by an appropriate benchmark, such as the Consumer Price Index (CPI). To protect the essential value of the endowment against the expected impact of inflation, the Finance Committee sets a payout rate for the endowment's income that provides a prudent rate of real growth of endowment funds while also providing a relatively constant funding stream in support of PATH's current expenditures for programs.

In determining each year's level of distribution, PATH will be governed by a spending policy which seeks to distribute up to 5% of the market value of the endowment investment portfolio, calculated based on the prior year's ending balance. This is consistent with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Note 13 - Project Revenue

The Organization has received several awards from The Department for International Development (DFID), United Kingdom of Great Britain and Northern Ireland, to support specific projects. DFID requires separate disclosure of revenue recognized in the Organization's financial statements. Revenue recognized, including releases of restriction, for each of these projects was as follows for the year ended December 31, 2016:

	(In Thousands)
Nutrition Embedding Evaluation Project (NEEP)	$ 1,111
Product Development Partnership (PDP) Arrangement for 2010-2015- Meningococcal Conjugate Vaccines	1,549
Reproductive Health Supplies Coalition- Developing Affordable, Quality Reproductive Health Commodities: Purchase Order 40068171	1,466
Technical Assistance for Nutrition 2016 to 2020	121
Maximizing the Quality of Scaling up Nutrition Programmes	3,285
Product Development Partnership Programme 2013 to 2018	7,223
	$ 14,755

Note 13 - Continued

Revenue for these awards is released from restriction as related allowable project costs are incurred and is included in contribution and award revenue on the consolidated statements of activities and changes in net assets.

Note 14 - Employee Benefits

The Organization sponsors a defined contribution 401(k) plan (the Plan). Under the Plan, eligible PATH employees may elect to contribute up to 75% of their pre-tax compensation, subject to certain limits under the IRC. The Organization will match the employee's contribution monthly at a ratio of 1:1 for the first 2%, and 1:2 for the next 4%, with a maximum employer contribution equal to 4% of pre-tax salary. Employer matching contributions to the Plan are fully vested after one year of completed service. Employee optional contributions in the Plan vest immediately. In addition, the Organization may make a voluntary employer contribution of up to 8% of employees' base compensation. Voluntary employer contributions to the Plan vest at a rate of 20% for each completed year of service. All regular U.S. hire employees are eligible to enter the Plan on the first of the month after completing three months of employment. The Organization also offers an optional Roth 401(k) plan.

Within the various countries in which PATH operates outside the United States, most employees are citizens of the host country. These employees are generally not eligible for PATH's defined contribution plan; however, they are eligible for certain local government sponsored plans appropriate for that country.

Employer contributions for both U.S.-based plans totaled $7.8 million and $6.7 million for the years ended December 31, 2016 and 2015, respectively. Total global pension costs totaled $9.3 million and $7.9 million for the years ended December 31, 2016 and 2015, respectively.

Note 15 - Commitments and Contingencies

Operating Leases - A summary of annual noncancelable minimum commitments under operating leases for office space and equipment is as follows:

For the Year Ending December 31,	(In Thousands)
2017	$ 8,413
2018	7,624
2019	7,650
2020	7,850
2021	6,724
Thereafter	16,251
	$ 54,512

Rental expense was $9.8 million and $9.2 million for the years ended December 31, 2016 and 2015, respectively.

Potential Disallowed Costs - Expenses incurred under certain programs are subject to audit by the awarding agencies. If, as a result of such audit, certain expenses incurred are determined to be nonreimbursable, the Organization may be liable for repayment of disallowed expenses previously claimed or received.

Note 15 - Continued

Contingencies - In the normal course of business, the Organization has various claims in process, matters in litigation and other contingencies. In management's opinion, the outcome from these matters will not materially impact the Organization's financial position or results of activities.

Note 16 - Refund of Unused Project Funds

From time to time, unspent award funds may be returned to a funder for a variety of reasons including, but not limited to, early termination of a project by a funder, or a reduction in funds required to accomplish a project's scope of work. Project funds were returned to funders as follows for the years ended December 31, 2016 and 2015:

	(In Thousands)	
	2016	2015
Early Terminations - PDS projects	$ -	$ 18,251
Early Terminations - Other projects	10,577	8,650
Reductions in funds needed to accomplish the scope of work	22,327	6,978
	$ 32,904	**$ 33,879**

Note 17 - Private Campaign Contributions

Private campaign contributions consist of both unrestricted and donor restricted contributions and pledges. Donor restricted contributions and pledges are to be used for specific purposes and/or will be paid over a period of time. Private campaign contribution revenue for the years ended December 31 consisted of:

	(In Thousands)	
	2016	2015
Unrestricted contributions	$ 8,328	$ 5,715
Temporarily restricted contributions:		
Time restricted	1,937	2,143

Total temporarily restricted	4,007	4,489
Permanently restricted contributions	4	3
	$ 12,339	**$ 10,207**

Note 18 - Derivative Instruments and Hedging Activities

Beginning in 2016, the Organization's risk management strategies include the use of foreign exchange (FX) derivative contracts. The goal of these strategies is to mitigate both market and economic risk so that movements in currency fluctuations do not adversely affect the value of the Organization or its ability to deliver on its contractual obligations and overall mission. The net fair value of the FX derivative contracts, reported at market value, is included in prepaid expenses and other on the consolidated statements of financial position.

At December 31, 2016 the Organization had in place foreign currency contracts for purchases of U.S. dollars (USD) with notional amounts totaling $67,297,150 and sales of USD for foreign currencies with notional amounts totaling $32,839,360. At December 31, 2016 the fair values of FX contracts held recognized in the consolidated statement of financial position are an asset of $439,000. The currencies being hedged are Euros and Great Britain Pounds.
